

# MISTIBOO!

From the age of 4 years

---

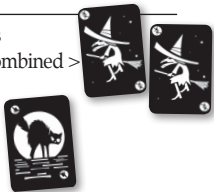

From 2 to 4 players

---

Contents: 33 cards  
32 card pairs to be combined >

and one Mistigri >

Aim of the game: To finish the game without the Mistigri in hand

---

Rules of the game: The youngest player begins. You play clockwise.

Deal out the cards.

The players look to see if they can make up pairs in their game. If so, they place the pairs down in front of them.

The game can then begin.

The first player takes a card randomly from the hand of his neighbour on the left. If he can create a pair with this new card, he places the pair in front of him. If this card does not allow him to create a pair, he keeps it. Then it is the turn of the next payer (the one who has just given him the card) to draw from the hand of his own neighbour on the left. And so on. All the cards form a pair except for the Mistigri card!! You must therefore be careful not to keep it in your hand...

*Even more fun and scary: the phosphorescent ink lets you play in the dark. Just expose all the cards to daylight or electric light for a few minutes before starting to play. In the dark, all the white parts of the drawings will be luminous.*

*Contains small parts which are a danger to small children.*
